

Faculty Position in Experimental and Phenomenology of Particle Physics

School of Particles and Accelerators, IPM

The School of Particles and Accelerators at IPM invites applications for tenure-track positions in the experimental and phenomenology of particle physics beginning spring of 2019. A Ph.D. degree in physics by the date of hire is required. The successful candidate in the experiment will be expected to play a leading role in the related activities of the group in the experimental particle physics in particular in the CMS experiment at CERN.

The candidates in phenomenology are encouraged to apply with a proven track record of research in collider phenomenology, dark matter and/or heavy quark physics.

Application materials should include a cover letter and CV. Candidates should arrange for at least three letters of recommendation. All documents must be sent to mojtaba@ipm.ir and particles@ipm.ir.

The deadline for application is 30th of September 2018
